

SCIENCE JOURNAL OF TRANSPORTATION

**Especial Issue No. 01
International cooperation Journals
MADI – SWJTU – UTC**

**Moscow - Chengdu - Hanoi
01 - 2009**

Dear researchers, colleagues and readers,

Transportation is the means by which all people are connected, all human activities occur. Nowadays, in strong globalizing process, community activities have not been limited by countries' borders; thus transportation becomes non - confrontiers.

We, transportation makers, in this moment, have had a common forum to together discuss, contribute, share and dedicate.

First Especial Issue of international co-operating transportation science journals of State Technical University (MADI) - Russia, Southwest Jiaotong University (SWJTU) - China and University of Transportation and Communication (UTC) - Vietnam is published in spring – season of blooming and developments.

We wish you and our transportation career were achieved, prosperous and fruitful.

Science is non - limitation,

Transportation is non - boder,

Friendship is non - confrontiers,

Aim toward the future, we will do our best to make transportation:

More intelligent and effective,

Faster and safer,

Cleaner and Greener,

With that objective, by this forum, we together connect, endeavour, research, create, contribute, share and devote.

Moscow – Chengto - Hanoi
