TRANSPORTATION**

**Special Issue No. 08
International cooperation Journals
MADI - SWJTU - UTC**

**Moscow - Chengdu - Hanoi
10 - 2017**

Dear researchers, colleagues and readers,

Transportation is the means by which all people are connected, all human activities occur. Nowadays, in strong globalizing process, community activities have not been limited by countries' borders; thus transportation becomes non-confrontiers.

We, transportation makers, in this moment, have had a common forum to together discuss, contribute, share and dedicate.

First Special Issue of international co-operating transportation science journals of State Technical University (MADI) - Russia, Southwest Jiaotong University (SWJTU) - China and University of Transportation and Communication (UTC) - Vietnam is published in spring - season of blooming and developments.

We wish you and our transportation career were achieved, prosperous and fruitful.

Science is non-limitation,

Transportation is non-border,

Friendship is non-confrontiers,

Aim toward the future, we will do our best to make transportation:

More intelligent and effective,

Faster and safer,

Cleaner and greener,

With that objective, by this forum, we together connect, endeavour, research, create, contribute, share and devote.

Information for Authors

Authors should follow the common rules of the research and publication ethics, avoiding plagiarism, research fraud, and simultaneous submission of manuscript to several journals, duplicate or “sliced” publications. In accordance with the “*Science Journal of Transportation*” policy, strictly original, unpublished previously manuscripts, resulting from a scientific research, are accepted to publication. Authors are supposed to have made a significant intellectual contribution to the research.

The language of articles is English. The structure of an article should include the following compulsory parts: article title, full authors’ name and surname, authors’ additional personal information (academic degree and title, e-mail, position), affiliation (name and address of working place), summary, keywords, introduction, main text, conclusion, and list of references. Presence of figures, tables, and mathematical dependences is welcomed in scientific articles.

Detailed requirements to publication, including article design and volume, as well as an article example can be found on the” “*Science Journal of Transportation*” official web-page: <http://lib.madi.ru/sjt/index.html>

MAIL ADDRESSES OF EDITORIAL BOARDS

Prof. Valentin Silyanov (Editor-in-Chief, Coordinator, Russia)

State Technical University - MADI
Leningradskiy prospect 64 (Suite 348A)
125319, Moscow
Russia
E-mail: silyanov@bk.ru

Assoc. Prof. Dr. Nguyen Duy Viet (Editor-in-Chief, Vietnam)

University of Transport and Communications (UTC)
No. 3 Cau Giay str.
Hanoi City
Vietnam
E-mail: ndviet@utc.edu.vn

Prof. Zhang Jin (Editor-in-Chief, China)

Southwest Jiaotong University (SWJTU)
Chengdu, Sichuan
People’s Republic of China
E-mail: zhjswjtu@swjtu.edu.cn
